B.Article:

Family name, author's name, year of publication, article's title, journal's name, place of publication, number of magazine: page numbers.

The Main Approaches and Bases of Journal of Urban Ecology Researches

The main objective of “Journal of Urban Ecology Researches” is to develop the urban, geographical and interdisciplinary researches which consider a balanced, comprehensive and holistic development.

This semiannual journal is intended to publish the theoretical, experimental and analytical papers with proper scientific quality. Hence, we invite the academic communities, researchers and scholars to send their research papers to the Journal’s website (journals.pnu.ac.ir) which includes *“theoretical innovations or unique and applicable experiments in the emerging subjects and issues of urban ecology related to the relationships among the urban environment and urban energy systems, urban ecology and agriculture activities around the cities, the city and its suburbs in relation with the reflection of natural, ecological, socio-cultural and political-economic issues of the settlements located in the suburban and urban areas and finally how the city is in relationship with other cities and villages”*.

The papers submitted to the semiannual Journal will be published after reviewing by the Editor, Academic Council and approving by the expert Juries in case of being consistent with the Journal’s trend, approaches and policies, Authors are required, before proceeding to write your essay, paper carefully read the terms and conditions:

Terms of development, acceptance and how to send the paper

Content

- The sent articles must be in the specialized filed of the Journal and have educational or research aspects and be the result of researches and studies of the author(s).
- They must not have been published or have been simultaneously sent to any domestic or foreign journal.
